Messages From the Visionaries

Nabil Mosharrif Hossain

Founder, Greentech Apps Foundation.

A Decade of GTAF: Looking Back & Forward

Assalamu alaikum wa rahmatullahi wa barakatuh,

Alhamdulillah - Ten years. SubhanAllah, it's hard to believe we've reached this milestone. When I started GTAF, I was simply looking for a better way to understand the Quran myself, using Tafsir and word-by-word analysis. I never imagined this project would grow into what it is today. This success came only through Allah's will and mercy, not through our own abilities.

Our mission remains clear: to help people better understand Islam.

I envision a day when every Muslim can fully comprehend and act upon the Imam's words at the mosque. This vision guides everything we do.

From day one, we've prioritized three things: providing genuine value, listening attentively to user feedback, and continuously

enriching our content library. You, our users, have been our greatest supporters—donating, sharing our apps, and offering invaluable feedback. For this, we are eternally grateful.

Registering as a nonprofit was a strategic decision to ensure sustainability. We had seen many Islamic tech initiatives start strong but fade when founders became busy with other commitments. Today, with 30 team members, we've built an organization with not just a 10-year history but a 50-year vision.

Looking ahead, we're bringing innovative technologies to create more interconnected learning experiences with holistic, contextual information. In the next decade, we aim to expand from one flagship app to five across multiple platforms, insha'Allah.

In these challenging times, unity and action from every Muslim is crucial. I invite you to remember us in your duas, consider collaboration opportunities, and continue sharing your ideas with us. The past decade has been remarkable, but with Allah's help and your continued support, our best is yet to come. Jazakum Allahu Khayran.

"With 30 team members, we've built an organization with not just a 10-year history but a 50-year vision."

Yemin Sajid

Co-Founder and Chief Executive Officer, Greentech Apps Foundation.

"O you who believe, if you will help (the religion prescribed by) Allah, He will help you, and will stabilize your footings."

Surah Muhammad 47:7

The Ummah is going through severe torment and difficulty. While some of us lead a secure and fulfilling life, our brothers and sisters pass the days with only dry bread to eat. This is happening in front of the whole world. You can't describe the helplessness of someone when their brothers and sisters forsake them and leave them to die in rubble.

The Prophet (PBUH) said: The people will soon summon one another to attack you as people when eating invite others to share their dish. Someone asked: Will that be because of our small numbers at that time? He replied: No, you will be numerous at that time: but you will be scum and rubbish like that carried down by a torrent, and Allah will take fear of you from the breasts of your enemy and last enervation into your hearts. Someone asked: What is wahn (enervation)? Messenger of Allah (SWT): He replied: Love of the world and dislike of death.

Sunan Abi Dawud 4297

"What we're trying to do in Greentech, might not be nearly enough, but this is what we got."

We might see the fulfilment of this prophecy in our lifetime. In this very difficult situation, it is

very easy to be demotivated and depressed and just sleep on the couch the whole day.

What we're trying to do in Greentech, might not be nearly enough, but this is what we got. 10 years is not a small time, it's only been achieved through the blessings of Allah (SWT).

If we can stick to our mission of helping Muslims better understand Islam with strong values and an uncompromising attitude, we might have something to say to Allah on the day of Judgement.

Maybe through this, Allah will allow us to lower our Wahn and have a real impact on the Ummah of Muhammad (PBUH).

Message from the Co-founder & Trustee

Dr Riasat Islam

Co-founder and Trustee, Greentech Apps Foundation.

Assalamu alaikum wa rahmatullah wa barakatuh,

Alhamdulillah, as we mark 10 years of Greentech Apps Foundation, I'm overwhelmed with gratitude. Looking back, it is only by the mercy of Allah SWT that we have been allowed to continue this work—to build tools that help people come closer to Him.

We didn't begin this journey with large teams or big resources. We began with a sincere intention: to serve the Ummah and seek the pleasure of Allah. And I believe it is that sincerity that Allah accepted, and through which He allowed us to grow. We are reminded of the powerful verse in the Qur'an:

"O you who have believed, if you support Allah, He will support you and plant your feet firmly."

Surah Muhammad, 47:7

And equally, we must always keep this warning in mind:

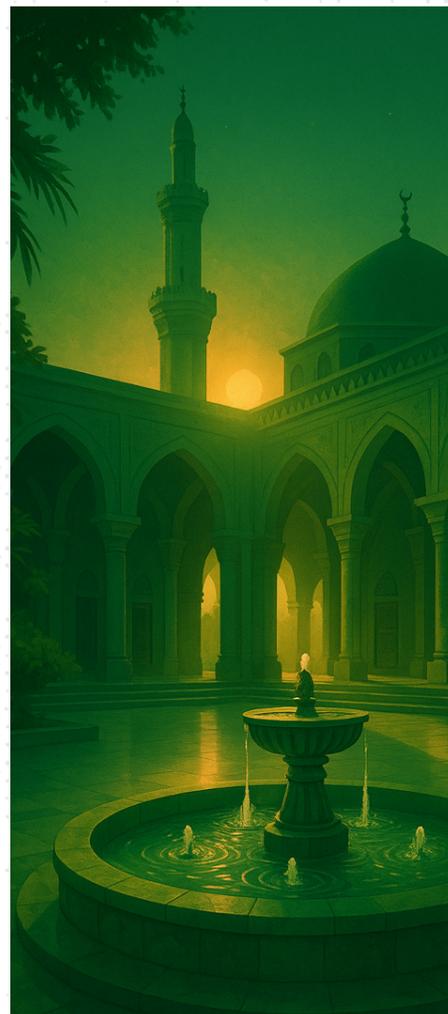

"If you turn away, He will replace you with another people; then they will not be the likes of you."

Surah Muhammad, 47:38

This work is an amanah (trust). It is not just about apps and downloads, it is about sincerity, impact, and staying true to our purpose. If we lose sight of that, we risk being replaced.

May Allah keep us steadfast, sincere, and always striving to improve. And may He accept from all of us. Ameen.

Wasalamu alaikum warahmatullah.

"It is only by the mercy of Allah that we have been allowed to continue this work—to build tools that help people come closer to Him."

"I believe it is that sincerity that Allah accepted, and through which He allowed us to grow."

Built on Belief, Grown Through Impact

A glimpse into our purpose, principles, and progress—this is what drives our mission forward.

Vision

To bring people closer to Allah

Mission

To help Muslims better understand Islam

Our Values

Keep growing

We aim to be the best at what we do and constantly learn and get better. We don't settle for the status quo. We are focused on growth and continuous improvement. We simplify the steps and maintain consistency.

Make the team Win

We are not afraid to share ideas and concerns with others. We prioritize team success over individual accomplishments. We collaborate and share knowledge with the team. We support each other in achieving both team and personal goals.

Foster Creativity

We learn, create, and innovate. We are not afraid to challenge traditional methods. We can adapt to change.

Be Proactive

We are motivated and take the initiative. We prefer collaboration over coercion. We anticipate and resolve issues instead of reacting to them.

Key Milestones: A Journey Through the Years

In every step forward, there has been purpose — a vision to empower, educate, and uplift. This timeline captures the moments that defined us, the efforts that shaped us, and the values that continue to drive us forward in service to the Ummah.

2015

Debut App

Being initiated by two motivate young men, We released our debut app, Dua & Zikr (Hisnul Muslim), in June and reached a remarkable 10,000+ installs in just under four months.

2016

Flagship App

We released our flagship app, Al Quran (Tafsir & by word), hoping to inspire and educate Muslims globally, Alhamdulillah!

2017

7 Apps

We reached a milestone of 7 apps, including the Hadith Collection, Dua & Zikr, Salat, etc. These collectively skyrocketed to an overwhelming 200,000+ total app installs.

2018

Registered as Non-Profit

We registered the Greentech Apps Foundation as a non-profit charity in the UK. Quran app install reached the 1M+ milestone while also being available on the App Store.

2 Million Installs

Our total app installs reached more than 2 million. We launched the Taskinator App on Android to arrange your daily routine with Islam, family, work and personal tasks.

Quran Memoriser

Our Co-Founder joined full-time to expand the team! Al Quran Memoriser app was released to make the Quran memorising process smoother.

Cross-Platform

To facilitate our goal, we deployed our Quran app on macOS. We released our Hadith collection app for iOS and macOS as well.

Team Expansion

Our team has become more than 20 people! We launched two new apps Seerah and Deen Quiz. We integrated new platforms for better user support.

Web Platform Focus

To give value to more users and reduce our dependencies on store platforms, we started our journey on the web platform. We launched our seerah.app website, developed searchdeen.com, and a zakat calculator online.

Expanding Our Horizon

After a lot of waiting and huge requests from our users, we finally developed Sadiq — our all-in-one learning companion app for Muslims. From daily prayers and adhkar to Quran reading and more, it's all here!

Empowering the Ummah: Our Major Projects

Our leading apps—Al Quran, Hadith Collection, and Sadiq—have served as essential tools in the spiritual lives of thousands. In this section, we explore their influence through user testimonials and key performance data.

Al Quran (Tafsir & By Word)

Al Quran (Tafsir & By Word) has been a source of guidance and reflection for thousands around the world. From students to reverts to lifelong learners, many have shared how the app helped them truly connect with the Qur'an — one word, one verse at a time. Here are some of their heartfelt experiences, reminding us of the real impact behind every download.

♦ **Nuverru**

I have been using this Al Quran app for over a year now and it has become an everyday essential for me.

The word by word meaning feature has been extremely helpful in improving my Arabic language skills, more so than any other resource I have tried. I particularly appreciate the ability to select a specific word and see all its occurrences throughout the Quran, giving me a deeper understanding of its usage.

The index feature is another standout, allowing me to easily navigate and research different topics, taking my understanding to another level. And the library feature has been a lifesaver, allowing me to save certain ayaths for later reference. Overall, this app

is an exceptional resource for anyone looking to deepen their understanding of the Quran and Arabic language. Highly recommended! May Allah bless the creators of this amazing Quran app and jazaakallah for providing such a valuable resource for Muslims worldwide.

♦ **Mohammad**

I don't know whether you will be reading this or not but I got to share this that,

tomorrow I will become a Quran Hafiz, inshaa Allah. The reason I am writing this here is that I memorized all the 30 juz from this app in approx. 7 to 8 months Alhamdulillah.

♦ **Ahmed Syed**

I love its features and options. I was looking for a Quran app that had multiple translations, I came across this app and loved the following features: – It lets you view different translations of an ayah simultaneously. It can simultaneously show word for word translation. **The BEST feature is that you can see verb conjugations and root words of every word.** It also displays the number of times a word appears in the Quran and its different variations. Plus, it will list all those verses.

♦ Umair Kashif

One of the best app for tafsir, best part about this app is the language, **you can choose any language** and the 2nd best features is you can listen to any verse with your preference of voice (Quari voice) there are so many voices. And also font there are specific **Asia, Europe and Middle East typography** there. Recommended app from my side.

♦ Hameedullah Farooki

As a student in alim course and a hifz student, **this app provides useful tools for both memorization and improving my Arabic.** I have used many Quran apps before, but this is the first I have found with tafsir, mufti taqi usmani translation, tajwid rules, proper page layout, Shuraym as one of the reciters, and word for word translation. It is also the highest quality one I've used. Jazakallah khair for the wonderful app.

♦ Adeel Siddiquei

Mashallah! This Quran app is a game-changer! The user interface is intuitive, and the recitations are crystal clear. I love the variety of reciters and translations available. The app's features, such as bookmarks, notes, and prayer reminders, have greatly enhanced my daily Qura

nic routine. What sets this app apart is its **accuracy, reliability, and commitment to spreading the Word of Allah.** I've tried several Quran apps before, but this one is by far the best. I highly recommend it to everyone and commitment to spreading the Word of Allah. I've tried several Quran apps before, but this one is by far the best. I highly recommend it to everyone.

♦ Md Tanjir Mahabub

This app stands out among all similar apps with its exceptional features, **seamless user experience, and stunning UI/UX design.** The intuitive interface makes navigation smooth, and every feature is well thought out and highly functional. Unlike other apps, this one truly delivers on performance, reliability, and innovation. Highly recommended for anyone looking for the best in this category!

♦ Waqas Ahanger

The app & the team has been tremendous from its beginning. **I have never seen a development team so focused & dedicated to work on feedback.** You guys are on top, may Allah SWT bless you with the best.

Hadith Collection (All in One)

Hadith Collection has opened doors for countless users to connect deeply with the sayings and Sunnah of our beloved Prophet (PBUH). Whether it's finding daily guidance, strengthening faith, or learning authentic knowledge, this app has become a trusted companion for many. Across the world, users have shared how it brought the Hadith closer to their hearts and homes. Here are some of their heartfelt reflections – each one a reminder of the app's lasting impact.

♦ Abdul Quddus

Bismilahir Rahmanir Raheem! Hadith collections has been of great use for me, during my studies and also everyday questions that arise when faced with day to day obstacles.

Very easy to navigate and the broad range offered to gauge information from, is great for the insightful person of faith to get a firm grasp on any questions they have in accordance with Sunnah

and also for the general knowledge of Hadith for an inquisitive mind outside of the fold of Islam. Alhamdulillah.

♦ Raheena Maqbool

This is hands down the best Hadith app available! It provides authentic Hadith collections, all sectioned properly for easy navigation. The **ad-free experience makes it even better**, UI is beautifully designed, simple, and intuitive. A huge thanks to Greentech Apps Foundation

for creating such a wonderful and seamless experience. As Ramadan is approaching you should definitely try it. "O Allah, bless us in Ramadan, help us in fasting and prayers, and accept our deeds. (Aameen).

♦ Jabaar Marzuq

As-salaamu alaikum warahmatullahi wabarakatuhu! This is a touching and well put together app. Touches on a plethora of Hadiths from all the different noble sources of the times. **Almost feels as if I'm those times as I'm reading them.** May the creator of the app be rewarded and may anyone who uses this app be granted beneficial knowledge in shaa Allah!

♦ Mohammed

May Allah SWT Grant you Jannatul Firdaus. Ma sha Allah. Very amazing and beneficial application to serve the ummah alhamdulillah. **Please I asked kindly never stop developing it and maintaining it.** It's a huge rewards on your scales of good deeds in the Hereafter. Amen ajmaeen.

♦ Fouad Kadir

Alhamdulillah, I've been searching on social media for authentic Islamic sources to help me learn, and finally, I found this app. **It's an incredible tool for anyone seeking to understand Islamic Hadith.** The app provides a vast collection, including Sahih Bukhari, Sahih Muslim, and other reliable sources. The interface is easy to navigate, making it accessible to all users, and the detailed explanations add so much value. It's truly a blessing for those wanting to deepen their knowledge.

♦ Muhammad Didar Khan

This app is truly outstanding! (Ma shaa' Allah) **It offers comprehensive and educational Islamic content.** (Alhamdulillah) The user interface is intuitive and easy to navigate, making it excellent for daily use. Many features are incredibly helpful and valuable. I highly recommend this (Hadith Collection) app to anyone interested in Islamic education. Many thanks to the developers (Greentech Apps Foundation) for creating such a wonderful app. Shukran jazeelan, Jazaakallahu khayran.

♦ Patel Mushab

Best app for hadith I've ever seen, May Allah grant Jannat ul firdaus to the people that worked for this app, **it contains every single hadiths, it shows the chain of narrations, their authenticity, it also shows all isnaads,** basically, it contains every single thing related to hadith.

♦ el-abass Hassan

Masha'Allah, this app is very nice. **It helps me with my students a lot. We learn many things through this app.** May Allah make easy for those who deal with it. Allahumma amiin.

♦ Jeefad Xuseen

This app is really amazing and has great importance, it has

gathered all the hadiths and in a simple and organized way. Thank you and may Allah reward you for your good deeds

♦ Shireen Fatima

If I could rate this app a billion or trillion... it would still won't be enough. How all the authentic hadith books ever made.. And their source—everything is provided in detail. SubhanAllah. Allahumma barik.

♦ Hoshber Hunter

Best app for hadiths its sooo useful and it's helping the ummah keep the sunnah and hadiths going brother/sister truly deserves the 5 star its easy to use and it helps the ummah keep it up good work!

♦ Md Sohil Ansar

A++ Unbelievably Beautiful. Undoubtedly it is one of the most useful Islamic applications available in Android market. Want to have authentic sayings of Muhammad (PBUH)? It is the final terminal... I love it so much.

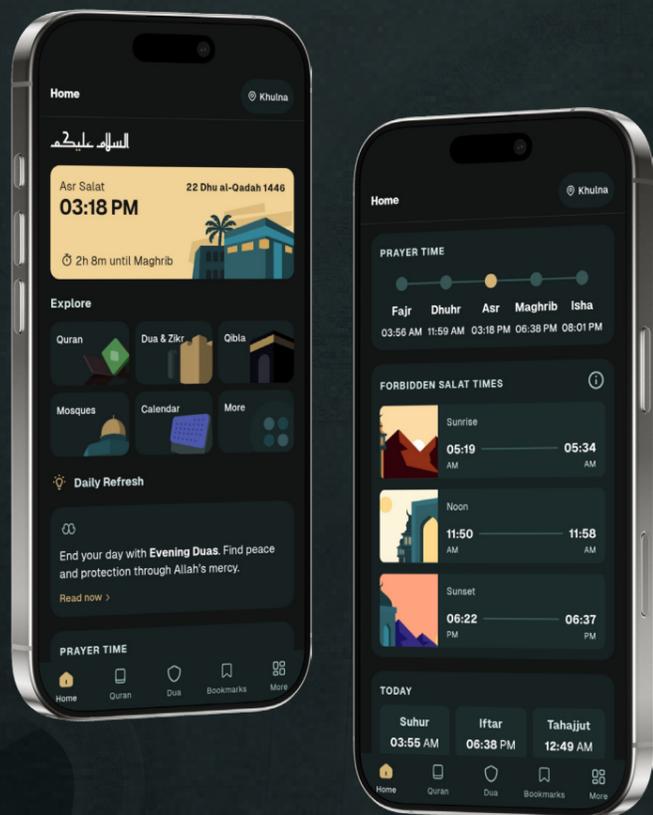

♦ Irda Noordin

JazakAllah Khair. Absolutely useful. **An all-in-one with easy search.** May Allah accept your deeds and efforts and grant you the best of this world and the next. Ameen. Ya Rabb.

On the Ground: Community Outreach & Events

At Greentech Apps Foundation (GTAF), we believe in building real-world connections alongside our digital work. This year, our team actively participated in various offline events across the UK and Bangladesh to engage with the community, gather feedback, and share our mission.

In the UK, we attended Muslim Tech Fest 2024, where our stall drew enthusiastic crowds. We met long-time users, engaged with young tech minds, and explored collaboration opportunities with fellow Islamic app developers.

Our outreach continued at the “Sitting with the Scholars” event in Bradford Muhammadi Masjid, connecting with scholars, students, and local attendees, where we received valuable feedback on improving our apps.

We also visited Sudbury Muslim Community Centre, where our Outreach Coordinator gave a talk before Jumuah on using technology for the Ummah. Beyond these, we connected with communities at Masjid Fida Leicester, Aberdeen Mosque & Islamic Centre, and Nottingham Islam Information Centre, strengthening relationships and opening

doors to future partnerships. These visits not only allowed us to showcase our work but also helped us listen deeply to the needs of those we aim to serve. Many conversations sparked ideas for future events, collaborations, and feature improvements in our apps.

Internationally, we supported Islamic events in Bangladesh through sponsorship, furthering our commitment to community engagement. Through these offline efforts, we’ve witnessed the impact of our work firsthand and are motivated to keep serving the Ummah—both online and on the ground, insha’Allah.

Your Stories That Moved Us

As part of GTAF’s 10-year anniversary, we invited our users to share their most memorable and heartfelt experiences with our apps and the response was truly inspiring.

So many beautiful stories were shared, reflecting how these tools have touched lives, deepened connections with the Qur’an, Hadith, and supplications, and supported personal growth. While we cannot include all submissions, we deeply value every story shared and the trust you’ve placed in us.

To everyone who took the time to open their hearts — Jazakum Allahu Khairan. Your heartfelt words fuel our mission and remind us every day why we’re here. Let’s take a look at some of them.

◆ Soumaya Kaffo

Bismillahir Rahmanir Rahim. Honestly, **Al-Qur’an has been my close companion throughout my hifdh journey**, and even now, once I completed it, Alhamdulillah, when I first heard about it and used it for the first time, I honestly felt so grateful to Allah that He brought this to me because it literally has helped me in so many ways, the most important one being that it helped me to finally understand the words of Allah.

And even now I look back and sometimes think to myself what would I have done if I didn’t have it, Subhan’Allah? **I know for some it may just be “a Qur’an App” but for me it’s more than that**, it’s a way through which Allah allowed me to understand His words, through which He allowed me to understand

and learn the language in which He sent His blessed Book.

So from the bottom of my heart, I sincerely express my heartfelt thanks, because the one who doesn’t thank the people hasn’t thanked Allah. And I pray that Allah blesses everyone involved in creating such a tool, forgives all your sins, grants all of you goodness in this life and the next, grants you thabāt on His path and ikhlās in all that you may do, uses this as a sadaqah jāriyah, and puts it on your scale of good deeds the day that you’ll need it the most. May He love you and be pleased with you in this life and the next. Allāhumma amīn. BārakAllāhu fīkum wa jazākumullāhu khayran.

◆ Mohamed Shareef Mohamed Anfaz

I followed an online Arabic course at an institute.

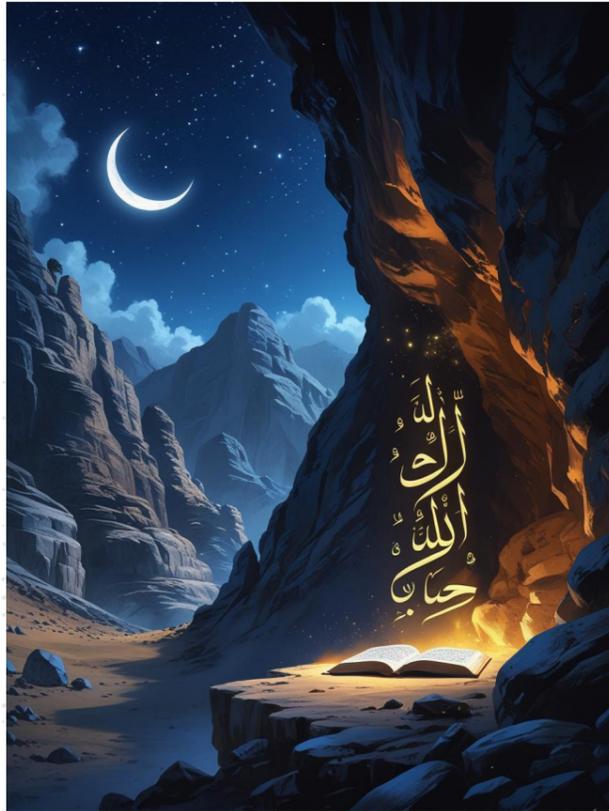

After that this app only helped me to become master in Sarf. Now, by the grace of Allah, I have formed my own Quranic arabic institution called Qayyimah Quran Campus,

have been teaching Qur’an for this Ummah. Without any hesitation, the base for sarf study—this app. I have used a number of similar apps, but nothing equals or comes close to this app in terms of its user-friendliness, features, and much more.

◆ Faiyaz Mahmud

One of the most beautiful things about the Al Quran app is how it made reading the

I Unforgettable Messages

Qur'an, an effortless part of my daily life. No matter where I was—on a bus, train, in a hospital waiting room, at college, or even in a quiet corner of the mosque—I could open the app and connect with Allah's words.

This app helped me build the habit of reading the Qur'an regularly, something I struggled with before. It's truly special **how accessible and peaceful it made the experience**, even in the middle of a busy day. Because of this app, I've felt more spiritually grounded and closer to my faith. I genuinely recommend it to everyone—it's a life-changing tool.

♦ Shameemah Kalaichelvan

My husband introduced this app to me about 6 years ago. Since then I read Qur'an only from this app. **Ma sha Allah Alhamdulillah you have made my Qur'an learning easy.** I have introduced this to many people in our

Qur'an group. Everybody now switched to Greentech app. It's like having an Alim with us at all times. My arabic knowledge has increased ma sha Allah.

May Allah reward you all immensely for your awesome efforts to spread the msg of Allah to anyone and everyone across the globe. By the way my husband, myself and 2 daughters reverted to our deenul fitra some years ago. **we find this app a gift from Allah.** Best learning experience I would say. It's an ocean, still we are exploring and reaping the benefits Alhamdulillah.

♦ Pramadi Abdulgani

I learned Tajwīd. I have a problem due to my breathing being too short. So Alhamdulillah, I found this Qur'an app that has the **facility to control the speed of the readers.** Jazakallāh.

♦ Jewoon Ruxana

I always felt sad while i could not understand quran due to limitations in the language. I have never studied the language. One day I asked Allah to teach me. Now with this App I'm learning slowly and gtaf has been of immense help.

♦ Shamima Ahasana

I wanted to know Allah. I always wanted to know the meaning of the Qur'an. When I came across it, I found a lot of things were not clear to me. I was struggling and couldn't interpret it. Then I thought I should read the tafsīr, but where would I get it? I couldn't afford the hadiya. One day, I saw one of my friends share this app on her WhatsApp status. I clicked it and checked. I found it very nice and really liked it. Finally I found a perfect quranic App. One more thing is, when I get stuck in the arabic

I Unforgettable Messages

ayat, I play the audio to correct my pronunciation. Alhamdulillah. Its really great. Great effort, team greentech. All the best to you. Zajakallah.

♦ Saud Ahmed

I usually used your app during my time in itekaff and it was one of the best time reflecting over the quran i had.

♦ Luqman Saad

Literally used this every day since I was at 5 juz; now **I have memorised 18 juz** by the help of Allah. For every page, I used the Al-Qur'an app. May Allah bless every one of you so much.

♦ Hamdia Alhassan

This app has made my Quran memorization journey so much easier and more meaningful. I love playing my favorite reciter on repeat, and over time, the surah sticks in my mind naturally. It helps me connect spiritually and brings peace to my heart.

♦ Adelayo Abdulbaasit

The most interesting thing to me about the app is the simplicity of the English text and **how easy it makes for one to even learn Arabic through it.** It has sincerely helped me not only improve my understanding of the Qur'an and deen but deepen my love for the Qur'an and has always been my companion to memorising the Qur'an Sincerely.

I find it very difficult to memorise even a verse from the Qur'an until I first go through and understand the Tafseer of the verse via this blessed App And Alhamdulillah Robbil'aalamin, **with the app, have memorised 7 juz+ All praise belongs to Allah!** I say a very big

Jazakumullahu khairan jazah to everyone who participated in developing this app and may Allah (S.W.T) continue to preserve you all upon goodness and never leave you to your affairs even for a blink of an eye (Amin).

♦ Yasin Temam

There is no simple expression for 'how I love this app!'. **It has been beside me every journey**, in places where I couldn't find physical Qur'an. Plus, in the late night to recite. Also the very helpful translation, has helped me to understand Arabic further. I had almost given up reading Qur'an for more than 20 years. You guys light up my world, for that, I pretty grateful. Thank You!!!

♦ Namira Ashfaq

I'm a student of Arabic language and have completed many Arabic courses **in every course I have benefitted a lot from the Qur'an App** from memorizing to finding out root letters, Tafseer, Selecting different Qari, Tajweed rules feature, Gaining the streaks and lot more **without charging a penny...** May Allah bless those hands who are in this project of spreading khair for the sake of Pleasing Allah May Allah accept it from All Aameen...JazakAllahu khairan.

♦ Mita

I regularly use the Hisnul Muslim and Quran app.

When I started praying Qiyam during the pandemic, I used the Hisnul app to help me perfect my Duas.

I really attribute Greentech app for improving my relationship with Allah (swt). May Allah continue to bless their efforts. Ameen.

I Unforgettable Messages

♦ Aini R

I can't tell you how many times reading the Quran from your app had given me comfort and healed whatever pain I was going through. How many times reading the translation or tafsir or plain recitation made me emotional. **Allah definitely knew I needed your app** and guided me and my family to this Alhamdulillah.

♦ Abdul shaheed Al-Amin

Just want to say I had enrolled in an Arabic grammar class by way of zoom for 2yrs. And **your tafsir section and your grammar section on the congregation of the verb in the verses helped tremendously!** May Allah reward you! And the part where you enabled to go straight to the chapter and then to the ayahs. And also the color coding of ayaats for tajweed reading, Ma sha Allah. Tabarakallah! Can't say enough. So keep up the good work.

♦ Fathima Ishfa

This app has been incredibly helpful during my tafsir classes. It not only deepens my understanding of the Quranic words but also shares beautiful stories that enrich the recitation experience. A truly wonderful companion for anyone seeking to connect with the Quran on a deeper level.

♦ Nurmira begum

My mother always wanted me to join hifz and memorize the Quran, so I joined hifz in year 4 and I saw this app so I got the app and started memorizing the Quran on it. Alhamdulillah I am now in year 6 and **almost finished 3 juz because of this app so alhamdulillah** I'm still going to keep using this app.

♦ Muhammad Saleem Khan

The morphological part is exceptionally well

as it helped me grow from an absolute beginner to a Quranic Arabic teacher.

♦ Dibangkitun Ayoong

Since I downloaded the Quran, **it has become my main Quran reference. It is where I learned to read the Quran with tajweed.** Up to now it is my Quran to go whenever I need to read, learn and ponder on the meanings of the quran. Since it has no ads, it became easier for me to read the whole Quran every Ramadan. Thank you very much and May Allah reward your team's good deeds and efforts in this world and the hereafter. Jazakallahu khairan.

♦ Dwi Susanto Nugroho

I was delighted to have a Qur'an in my phone! **Imagine having the complete book along with the tafsirs and their explanations in this gadget** that you bring everywhere you move. And this app of Greentech is clear, easy to navigate and to set. Thank you Greentech!

♦ Alasana Beyai

It has indeed helped me a lot through Quranic studies. I regularly practice my lesson before I reply my Quranic teacher. Features like the repeated mode, and the colourful "Tajwid" rules has indeed assisted me. Thank you. May Allah reward team Greentech abundantly.

♦ Md. Jahidul Islam

The moment when I found the Al Quran app with word by word meaning and grammar

I Unforgettable Messages

explanation of every single word, **specifically the sarf explanation, it was so overwhelming that I had become speechless.** I never even thought this amount of convenience can exist. From then, I have been using this app for almost every day. Thank you soooooo much the whole Greentech App team.

♦ Subaat Shahzada

The regular ayah notifications get me tearing up really strong sometimes. The moment is just exact and it is heartwarming to see that this type of feature is available so that these moments where I can easily access and be exposed to Quranic Ayahs and/or Tafsir.

♦ Aqeel Ahmed

Assalamu alaikum wa rahmatullahi wa barakatuhu . I have been using this app for more than 5 years and I love the experience of Tajweed and multiple Tafseer. To me, Tafseer Ibn Katheer is very valuable. **At several times I cry and many a times I feel ecstatic upon reading the tafseer Alhamdulillah.**

This app has given a great chance to get connected to Quran by understanding it more clearly at every possible times. I have referred this application to several of my friends. May Allah SWT give you all abundant Jaza for all your efforts in both the worlds. Amin ya rabbal alamin.

♦ Abida Zama

Alhamdulillah! For this app..since my college days, I read surah Yaseen every morning and night and Surah Al-Kahf every Friday from this app when I was in hostel. Later too, after getting married and **even in pregnancy I read from this app throughout my journey...** I thank all the app developers for

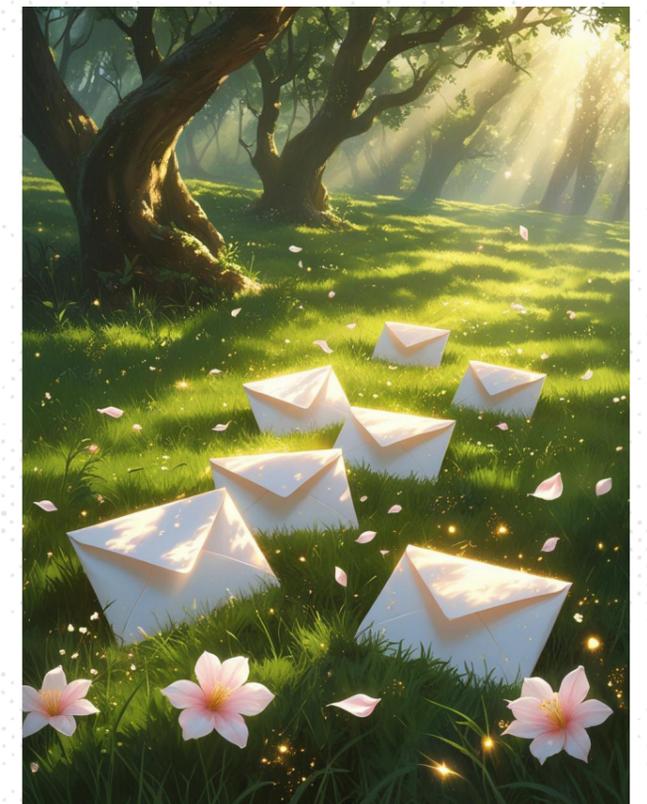

working so hard for this app to reach us **and to keep it ad-free.** May Allah ta'ala continue to bless you with the best of deen and duniya, Aameen.

♦ Mahbub Hossain Khan

Last 5 to 6 years I have been completing Quran khatam using your app in Ramadan month. It has been my special companion for everyday because each day I use to read it even for at least 1 minute.

♦ Saima

Whenever I am down, **ayah of the day has always been a healing potion to my exhausted, wounded heart.** I love that feature the most. And tafsir with each verse is the game changer part to deeply connect with each ayah. It is amazing that this app still able to hold its position without showing ads.

Our Partners

Since our journey started in 2015, many organisations and individuals have supported our projects in various ways. We appreciate their contributions. May Allah reward them all. We'd like to acknowledge some of them here.

Many other organisations and individual brothers and sisters have also helped us by sharing feedback, preparing content, translating app UI, and reporting bugs. May Allah reward them all, Ameen.

GTAF Family Outing Through the Years

2025

 Sreemangal, Sylhet

In the land of tea gardens and gentle breezes, Sreemangal welcomed us with calm mornings and refreshing air. From bonding over breakfast to sipping fresh tea after long walks, it was a retreat that gave our team space to breathe and return with new energy.

2024

 Rangamati

Surrounded by hills and lakes, our journey to Rangamati was nothing short of magical. We explored the local culture, cruised on crystal-clear waters, and shared countless laughs under the open sky – leaving with memories we'll cherish for a long time.

2022

 Kaalmegha, Gazipur

Nestled amidst serene greenery, our time at Kaalmegha was all about unwinding from the rush of everyday work. From leisurely strolls under the open sky to playful team games by the pool, it gave us the perfect escape – recharging our minds and spirits.

Insights From Our Team

Ahmad Mohammad Ullah
Chief Technology Officer
4 Years

I have been working in Bangladeshi tech companies for several years, nearly a decade. Working on a cause and working solely to generate revenue are completely different. And what better cause is there than pursuing your creators satisfaction with your work? It gives you inner peace and tranquility. For Greentech, there is still a long way to go. We should reach every human being with our dawah efforts through whatever means we have.

the companions of the Prophet (peace be upon him), and considering the state of our times, I believe we are in desperate need of good deeds. And I want those good deeds to continue even after my death. That is why I joined this Sadaqah Jariyah project and that is what continues to motivate me. Every time I read the positive feedback from our users, it becomes a memorable and deeply rewarding experience.

Shehab Ahmed Sayem
Senior Software Engineer
3 Years

Alhamdulillah, I have been a part of greentech for 3 years. I am a senior software engineer responsible for the backend part of our applications and server management. For me, this is a blessing from Allah Subhanawa ta'ala to work here. I can use my professional skill not only to earn halal but also do something that is impacting the ummah worldwide Alhamdulillah. The whole culture of our company is one of the best I would say.

Zunaid Aslam
Chief Product Officer
5 Years

My experience here has been nothing short of phenomenal. All my teammates are aligned with the same vision and values. Abu Hurairah (may Allah be pleased with him) reported: The Messenger of Allah (SWT) said, "When a person dies, their deeds come to an end except for three: ongoing charity (Sadaqah Jariyah), beneficial knowledge, or a righteous child who prays for them." *[Riyad as-Salihin, Hadith 1383]*

This hadith is what inspired me to join and remain committed to this cause. At the end of the day, we don't truly know what will be on our scale of deeds. Compared to

Newaz Sharif

When I first joined GTAF, there were only three full-time engineers, including myself. At that time, the current COO of GTAF single-handedly managed the backend, frontend, and

I GTAF Family

design responsibilities. On one occasion, we even responded to user comments on the Play Store ourselves. By the grace of Allah, GTAF has grown significantly since then, and now there are dedicated departments for each function. Alhamdulillah, the work culture has remained healthy and non-toxic throughout—blame is never placed on individuals. I sincerely pray for GTAF's continued success and growth. May Allah accept GTAF as a lasting endeavor on the path of righteousness.

Julhas Biswas
Marketing Executive
2 Years

I joined the GTAF team in 2023, but I've been using the Al Quran and Dua apps since 2018. I'm really grateful to be part of such a motivated team working to bring people closer to Allah. May Allah benefit the Ummah through GTAF's work and accept all our efforts, Ameen.

Minhaz Muktadir
Junior Marketing Executive
1.5 Years

I started my journey at Greentech Apps Foundation in December 2023. Saying it's a dream job would be an understatement. My path to Islam began in 2009 after being inspired by Dr. Zakir Naik's (H.) lectures on Peace TV. Since then, Dawah has been a big part of my life. So being able to do Dawah through Greentech's apps and media is a blessing from Allah. Alhamdulillah.

Before joining, I used to pray for Halal and Tayyib Rizq—not asking for any specific company, but deep down, Greentech was always on my mind. And here I am, 18 months later, sharing this journey. Subhanallahi wa bi Hamdih.

Working at Greentech has been amazing. The team is kind, hardworking, and truly cares about the mission. It's a healthy and inspiring environment. One moment I'll never forget was when I went to Mufti Saiful Islam at Masjid At-Taqwa in Dhanmondi for outreach permission. He hugged me and praised our work. That meant a lot.

Asadul Haque
Software Engineer
1.5 Years

Alhamdulillah, I am happy being a family member of GTAF. So far I have worked for a number of companies before GTAF but did not feel good as like as staying in GTAF. What motivate me to stay in this family is their affords and also mine are sadaqah zariah ing-sha-allah. On the other hand GTAF office culture and environment are awesome.

10-YEAR TARGET

Our 10-year target is a bold vision to grow and bring more people closer to Allah. We believe that with His permission and our best efforts, we will succeed. Our targets for the next decade are as follows, by His will.

20

Million weekly active users

20+

Languages supported

5

Countries with a physical base

5

Top-tier products run by autonomous teams

30

Collaborations with Muslim organizations

10

Ongoing non-technical projects

30

Million Pounds in revenue

20

Countries with local representatives

I envision a day when every Muslim can fully comprehend and act upon the Imam's words at the mosque. This vision guides everything we do.
